

Registration Quarantines (deprecated)

Note that we mainly use the `Imod` environment modules software in place of quarantines, although you might occasionally encounter a quarantine on SciNet, for example.

A historical list of quarantines (which won't work at MICe since the 12.04 -> 16.04 upgrade):

Registration Quarantine	Created	Information
Quarantine Eeyore	July, 2015	PydPiper at MICe with quarantines
Quarantine Toothless	September, 2011	Toothless Quarantine
